ENGLISH

Read the story and answer the questions in full sentences.

MY LAST TIME AT THE BANK

My first time at the bank was at the beginning of first term. I was in Primary five. Barely ten years of years, my father filled the school bank pay – in – slips and told me to go and deposit my school fees in Cente plus Rural Development Bank in Ndeeba town.

When I reached the bank, I went to the customer care desk to make inquiries about the banking procedure. The lady at the customer care desk, therefore advised me to join the queue. I did as she had told me. However, the queue could hardly move. It was like a fleet of vehicles stuck in the traffic jam.

After standing for an hour in the **queue**, I finally succeeded in getting to the counter where the cashier was. She received my school bank pay – in – slip, checked, signed and stamped them. After a short time, the cashier called out my name and handed to me the parent's copy and the school copy. She remained with the bank copy, waved and said good bye to me.

I kept the two copies of the school bank pay – in – slip in my school bag and went to school. Immediately I reached school, I gave the school copy to the bursar. She then made a receipt and a clearance card to me.

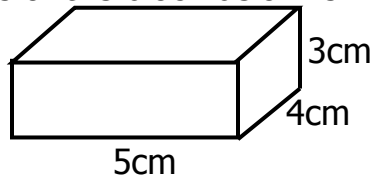

Questions:

1. Where did the writer go according to the story?
.....
2. Why was the writer sent to the bank?
.....
3. In which district is the bank located?
.....
4. For how long did the writer stand in the bank?
