READ THE FOLLOWING INSTRUCTIONS CAREFULLY

1. This paper has **two sections: A and B**. Section A has **40 questions (40 Marks)** and Section B has **15 questions. (60 Marks)**
2. Answer **ALL** questions. All answers to both sections A and B must be written in the spaces provided.
3. All answers **must** be written using a **blue or black ball point pen or ink**. Any work written in pencil will **not** be marked.
4. Unnecessary **changes** in your work and handwriting that cannot be read easily may lead to **loss of marks**.
5. Do not fill anything in the table indicated
- **"FOR EXAMINERS' USE ONLY"**

FOR EXAMINERS' USE ONLY		
QUESTION NUMBER	MARKS ATTAINED	INITIALS
1 - 10		
11 - 20		
21 - 30		
31 - 40		
41 - 43		
44 - 46		
47 - 49		
50 - 52		
53 - 55

APPROVED:

Consultant

Integrated Science Department (PEC)

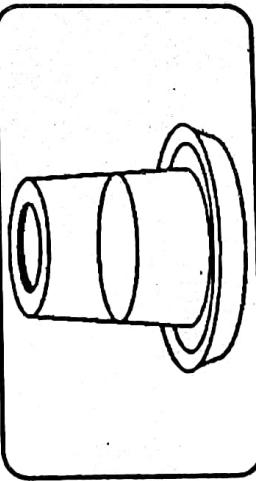

PUBLISHERS OF:-

THE PRIME; SCHEMING FRAME WORKS, PUPIL'S WORKBOOKS, LESSON COURSE BOOKS, HOLIDAY PACKAGES
LEARNING GAMES, REVISION BOOKS, PLE ANALYSIS REPORTS AND MANY MORE.

Section A (40 Marks)

1. Name the common accident caused by careless running.
2. To which type of change do you group ripening fruits in the environment?
3. Why do farmers carryout dosing in goats?
4. Give one advantage of bottle feeding to the mother.
5. Mention the element of PHC that helps to prevent bad body smell.

The diagram below shows an equipment found in a deep litter house. Use it to answer questions 6 and 7.

6. Name the equipment shown in the diagram above.

7. Give the use of the equipment shown in the diagram above in a deep litter house.

8. Which component of air is used to preserve semen obtained from Billy goats?

9. State one way of conserving wood fuel at home.

10. Mention one example of a physical change in the environment.

11. Name the goat disease caused by trypanosomes.

12. Why should pregnant mothers be fed with foods rich in proteins?

13. How do bacteria reproduce in the environment?

Give the reason for washing our hands with soap and clean water after using a latrine.

State one way of caring for carrot crops in the garden.

The diagram below shows a method of keeping goats. Use it to answer questions 16 and 17.

Name the method of grazing goats shown in the diagram above.

Give one advantage of using the method above when grazing goats.

What do we call **the energy possessed by a rolling stone?**

Name any one type of a rabbit hutch.

Why is **rusting** referred to as a **chemical change?**

State one principle of PHC.

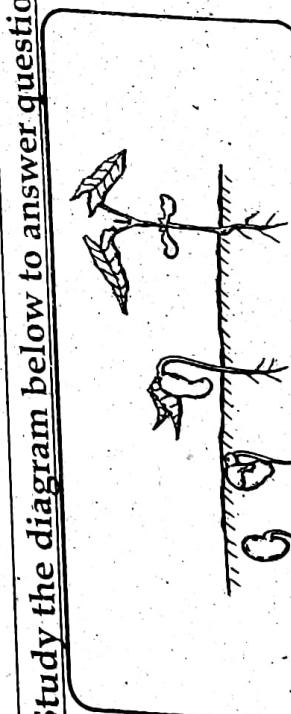

Name one mineral salt absent in breast milk.

Why is marasmus called a non-communicable disease?

3. Which part of an egg is similar to the plumule and the radicle of a germinating seed?
4. Give one reason for constructing a goat's house with a slanting floor.

5. Use the diagram of a garden tool below to answer questions 26 and 27.

- WARNING: Not to be reproduced electronically!!!**
26. Name the farm equipment shown in the diagram above.
27. How can a farmer prevent the above garden tool from rusting?
28. You are a health prefect in your school. Give one activity you would do during health parades.
29. State the role of a queen bee in the hive.
30. Mention one danger of food beliefs to human health.
31. How can a farmer improve on local breeds of goats in a farm?
32. Which method can be used to separate stones from beans?
33. In which one way is a child health card important to a health worker?
34. Write 3Ds in full as used in science.
35. Why do plants need sunlight in the environment?
- WARNING: Not to be reproduced electronically!!!**
36. Study the diagram below to answer questions 36 and 37.
- 
- Name the type of change shown in the diagram above.
37. Give the reason to support your answer in (36) above.
38. In which part of the digestive system does the digestion of proteins start?
39. How are tapeworms dangerous to man?
40. State one role of a father at home.

Section B (60 Marks).

(a) Mention any two examples of domestic animals kept at home.

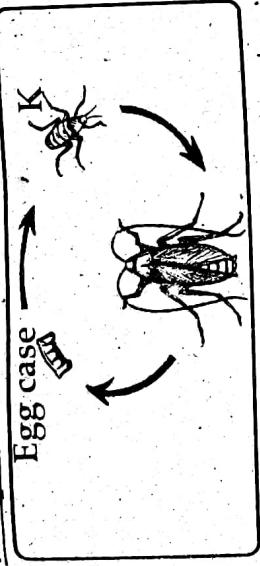

(i) _____ (ii) _____

(b) Which animal product is used for making;

(i) leather bags

(ii) manure

The diagram below shows a type of metamorphosis. Study and use it to answer the questions that follow.

(a) Name the type of metamorphosis shown in the diagram above.

(b) Mention any two insects that undergo the type of metamorphosis shown in the diagram above.

(i) _____ (ii) _____

(c) Identify the stage marked K from the diagram above.

(a) Write one responsibility of the following in promotion of health in the

(b) Mention any two examples of good health practices among people in the community.

(i) an individual

(ii) a family

(i) _____ (ii) _____

(b) Mention any two examples of good health practices among people in the community.

(i) _____ (ii) _____

(a) What term is used to mean the following in bee keeping;
(i) selecting a suitable place to put a bee hive.

4.

(ii) encouraging bees occupy an empty hive.

(b) State two factors to consider before choosing a place for an apiary.
(i) _____ (ii) _____

45. Peter forgot his hoe out for a night. He found it when it has a brown powder on it.

(a) What do we call the **brown powder on the hoe?**

(b) Name the process that led to the formation of the brown powder on the hoe.

(c) How can the above process affect the hoe?

(d) Give **one** way how the above process can be prevented in metals.

46. (a) Name the type of mosquito that spreads yellow fever to people.

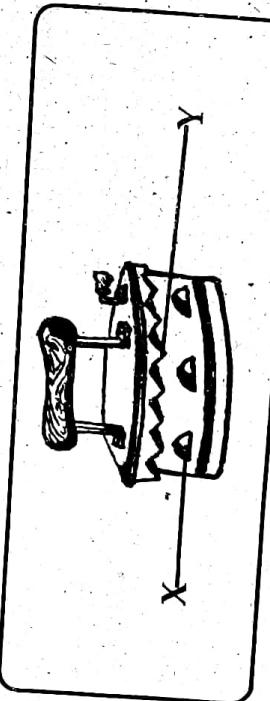

(b) Give **two** signs of malaria.

(i)

(ii)

(c) State any **one** effect of malaria to people.

47. The diagram below is of an ironing box. Use it to answer the questions that follow.

- (a) How are holes X and Y important on the iron box above?
(i) X
(ii) Y
- (b) What is the advantage of making the handle of an ironing box using wood?
- (c) Why is the ironing part of the ironing box made of a metal?

- (a) What is meant by the term **sanitation**?
(b) State any **two** ways of promoting proper sanitation at home.
(i)
(ii)
(c) Give **one** item used to promote proper sanitation.

9. Name the type of soil best for;

- (a) making ceramics
- (i) growing crops
- (ii) growing crops _____
- (iii) growing crops _____
- (b) Mention two components of the soil.

(i)

(ii) Match the elements of PHC in A and their importance in B.

A

(a) Health education

(b) Sanitation

(c) Oral and dental health care

(d) Family planning

(a) Health education

(b) Sanitation

(c) Oral and dental health care

(d) Family planning

B

Match the elements of PHC in A and their importance in B.

enables families to have few number of

children.

helps to prevent teeth diseases.

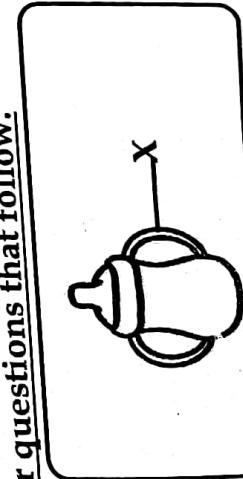

helps to prevent communicable intestinal

diseases

provides information how to care for our

health.

50. The diagram below shows an equipment used in the feeding of babies. Use it to answer questions that follow.

51.

WARNING: Not to be reproduced electronically!!!

(a) Name the part marked X.

(b) Name the kind of feeding babies that requires the use of is such equipment shown in the diagram above.

(c) State one condition that can lead to above kind of feeding babies.

(d) Give one advantage of above kind of feeding to a baby.

52. (a) Mention any two methods castration.

- (i) _____
(ii) _____
- (b) Give any two reasons for castrating male animals.

- (i) _____
(ii) _____

53. (a) To what type of change would you group the following;

- (i) turning of ice into water

(ii) burning of dry wood into ash.

(b) Mention any two ways of managing body changes.

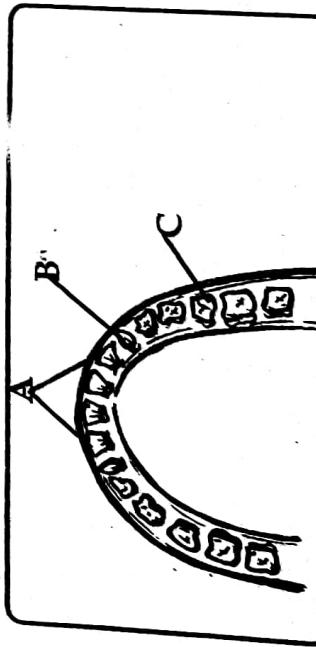

- (i) _____
(ii) _____

54. (a) What we call the *mass per unit volume?*

(b) Find the density of an object whose mass is 20g and volume 5cc. (03 Marks)

WARNING: Not to be reproduced or distributed electronically.

55. The diagram below shows a human dental formula. Use it to answer the questions that follow.

(a) Name the teeth labelled A and B.

- (i) A _____ (ii) B _____

(b) Give the function of the tooth labelled C.

(c) State any one way of caring for our teeth.

19	• Morant hutch/ Caged hutch/ traditional hutch	Soil P.30			P.5
18	• Kinetic energy	Heat energy P.33	Describes forms of mechanical energy.		C
17.	• Ensures efficient use of pasture/ enables the growth of pasture in other areas/ it controls over grazing/ manure is evenly distributed on the farm/ it prevents animals damaging crops/ animals get the best pasture/ it does not require much attention.	p.43	grazing goals.	logic, appreciations, critical self awareness, critical thinking, self awareness	A P.5

20.	• It results to formation of new substance/rusting irreversible.	THE PRINTED INTEGRATED SCIENCE END OF YEAR MARKING GUIDE 2023	• Describes characteristics of chemical changes.	Types of changes P.19	• Stated the principles of PHC.	• Calcium/phosphorus/iodine/magnesium/iron/potassium.	• Names mineral salts found in breast milk.	• Food and nutrition P.46	• Our food P.44	• Describes non-communicable diseases.	• It does not spread from infected person to another.	• Embryo	24.	• House.	• For easy flow of urine outside/for easy cleaning of the house.	• Gives the reason for constructing goats' house with a slanting floor.	• Keeping goats, sheep and pigs.	• Describes the garden tools	• Grows crops P.38	• States activities carried out during health parades.	• Checks whether children comb their hair/ checking children's nails are short/ checking whether children's bodies are clean/ checking whether the children's uniforms are clean/ checking whether the children are brushed.	• A queen bee lays eggs in the hive.	• Food beliefs lead to malnutrition /nutritional deficiency	• Diseases.	30.	• Food beliefs lead to malnutrition /nutritional deficiency	• States the dangers of food beliefs.	• Keeping poultry and bees P.22	• Gives the role of the queen bee.	• Gives the importance of the queen bee.	• A queen bee lays eggs in the hive.	• It helps them to monitor the child's growth rate/ it helps them to know the next vaccination to be given/ it helps them to know the child's information.	• Diarrhoea Dehydration Death	34.	• It helps them to monitor the child's growth rate/ it helps them to know the next vaccination to be given/ it helps them to know the child's information.	• Gives the importance of child health card to the health worker.	• Immunisation P.26	• Self awareness, critical thinking	• Gives the importance of child health card to be given/ it helps to identify the vaccine already given/ it helps health workers to know the child's information.	35.	• To carry out photosynthesis/ to make their own food.	• Gives the importance of sunlight to plants.	• Plant life P.21	• Critical thinking, creative self awareness, critical thinking	• Environmental awareness, creative care, appreciation, concern	• Logical, appreciation, logical, appreciation, critical thinking	• Logical, appreciation, critical thinking	• Describes biological changes in living things.	37.	• Biological changes	• Describes changes in living things.	• Types of changes P.41	• Critical thinking, creative self awareness, critical thinking	• Logical, appreciation, logical, appreciation, critical thinking	• Logical, appreciation, critical thinking	• In the stomach	38.	• Biological changes take place in living things.	• Names the part of the digestive system where proteins are digested	• Digestive system P.28	• Self awareness, critical thinking	• Logical, appreciation, logical, appreciation, critical thinking	• Logical, appreciation, critical thinking	• Logical, appreciation, critical thinking	• Lead to stunted growth/ tape worms to body/ tape worms	39.	• They feed on digested food in human's body/ tape worms	• Stated effects of tapeworms to humans.	• Communicable intestinal diseases and worm infestation	• Critical thinking, creative logical, responsibility, care, empathy	• Lead to stunted growth/ tape worms to body/ tape worms			
-----	---	---	--	-----------------------	---------------------------------	---	---	---------------------------	-----------------	--	---	----------	-----	----------	--	---	----------------------------------	------------------------------	--------------------	--	--	--------------------------------------	---	-------------	-----	---	---------------------------------------	---------------------------------	------------------------------------	--	--------------------------------------	--	-------------------------------	-----	--	---	---------------------	-------------------------------------	---	-----	--	---	-------------------	---	---	---	--	--	-----	----------------------	---------------------------------------	-------------------------	---	---	--	------------------	-----	---	--	-------------------------	-------------------------------------	---	--	--	--	-----	--	--	---	--	--	--	--	--

40.	(a) Pays fees/bills/buys food.	States the roles of the father at home.	Familly roles P.10	environmental awareness, appreciaton	logic, care,	P.5	C
41.	(a) Dogs, cats, goats, cows, pigs, sheep	Describes domestic animals	Animals P.17	critical thinking, creative concern	logic, appreciaton,	P.3	K
42.	(a) incomplete metamorphosis (b) grasshoppers/ termites/ bedbugs/ crickets	Describes responsibilities of different people in health promotion.	PHC P.49	Self esteem, self awareness	logic, concern,	P.5	C
43.	(a) (i) Bathing everyday/ washing hands before eating food/ brushing teeth every after a meal/ ironing clothes and bedding/ cutting short finger and toes nails (ii) drinking/ disposal of feces and urine/ boiling water for rubber/ disposing of feces and urine/ collecting and burning (iii) feeding on a balanced diet/ proper sanitation/ personal hygiene/ going for immunization of family members/ washing utensils/ scrubbing toilets.	Describes responsibilities of different people in health promotion.	PHC P.49	Self esteem, self awareness, problem solving	logic, concern,	P.5	C
44.	(a) (i) Stinging the bee/hive (ii) Sticking a hive. (b) It should be away from people and animals/ it should be near a power plant/ the place should be noise free/ the place should be nearer the water source/ way from the road/ it should be free from enemies.	Describes stocking and stting in bee keeping.	Keeping bees and poultry P.22	self esteem, critical thinking, love	logic, concern, care,	P.5	C
45.	(a) By rusting/ coating/ by oiling moving parts of the weak. (b) It reduces the hoe blunt/ it changes and spoils the colour of a hoe/ it makes the hoe blunt/ it makes the hoe blunt/ it makes the hoe blunt/ it changes and spoils the colour of a hoe/ it makes the hoe blunt/ it changes and spoils the colour of a hoe.	Describes rusting in metals as chemical change	P.42	physical, chemical changes self awareness	logic, care, appreciation	P.5	C
46.	(a) Tie/ needs mosquito (b) Shivering and shivering of teeth/ serious sweating/ rapid breathing and pulse rates.	Describes the iron box as used at home	Heat energy P.33	critical thinking, self esteem, critical thinking, solving problem	logic, appreciation, concern	P.5	A
47.	(a) (i) X – lets in fresh air. (ii) Y – lets out warm air.	Describes the iron box as used at home	Heat energy P.33	critical thinking, creative concern	logic, appreciation	P.4	A
48.	(a) Is the general cleanliness of the compound clean. (b) Sweeping rubbish in the compound/ proper disposal of human waste/ proper disposal of rubbish/ sweeping tall grass around the compound/ drainage stagnant water/ sweeping pit latrines/ burning rubbish.	Describes sanitation	Sanitation P.46	thinking, environmental awareness	logic, appreciation, concern	P.4	K
